TECHNICAL BROCHURE

MAINTENANCE ON THE GO

Fagioli Maintenance is a service dedicated to all the clients who own heavy equipment and need to keep it in good operating condition. Fagioli, with its long experience in heavy transport and lifting activity, has its own maintenance workshop areas, working 24/7 to repair and refurbish the equipment used all over the world for the hauling and hoisting operations. For this reason Fagioli owns dedicated containers converted in mobile workshops to be used either for Fagioli equipment or for client's prompt needs.

MAJOR BENEFITS

- QUICK SHIPMENT:** Because containers with standardised dimensions are used, they can be easily transported by lorry and shipped all over the world.
- FULLY LOADED:** Fagioli container workshops are fully packed with all necessary tools to be used for a quick and safe maintenance or mechanical interventions in case of failures or repairs.
- SAFELY LOCKED:** -The container workshop can be locked and portable equipment and objects are secured in places with special hooks and straps, making it possible its transport and shipping without the risk of damages to the equipment and tools.

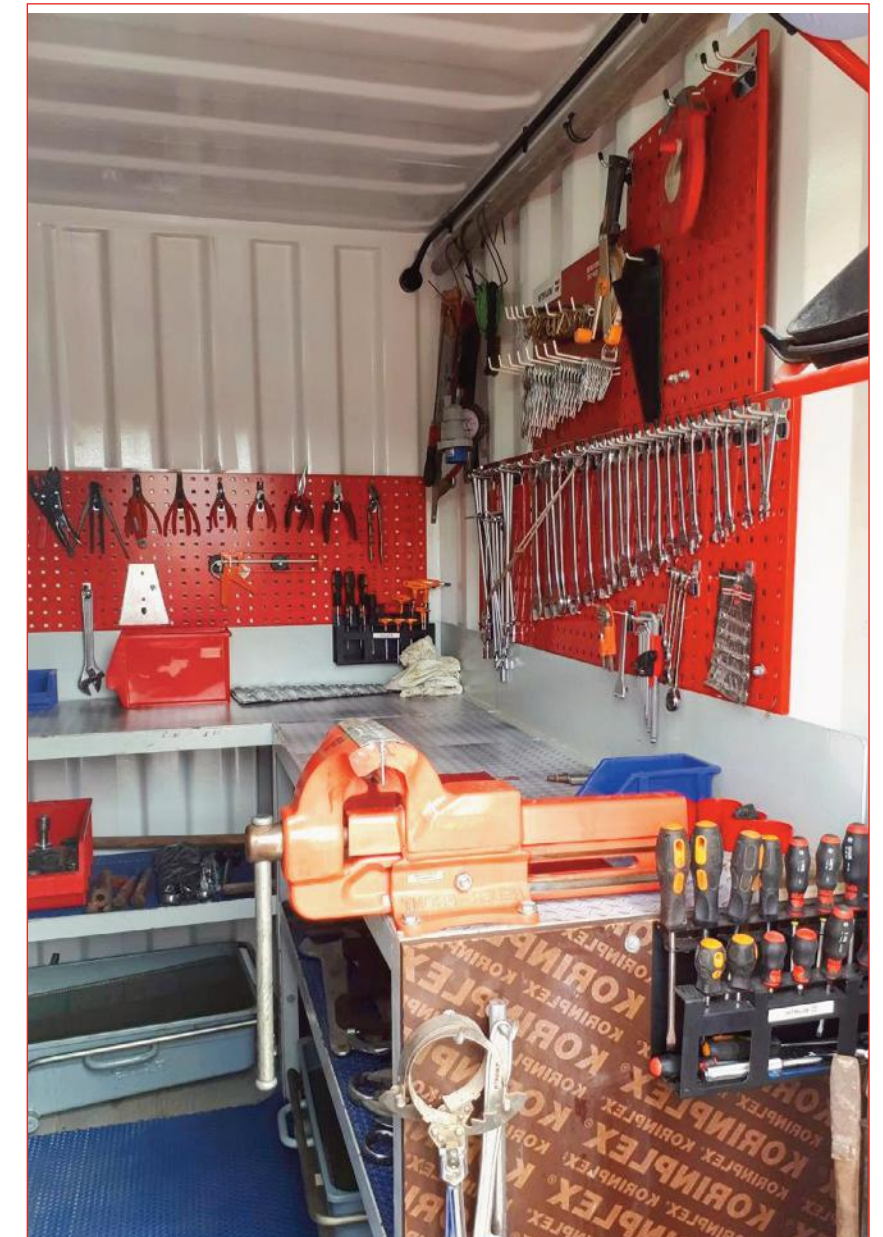

USE AND APPLICATION

MAIN SERVICES PROVIDED

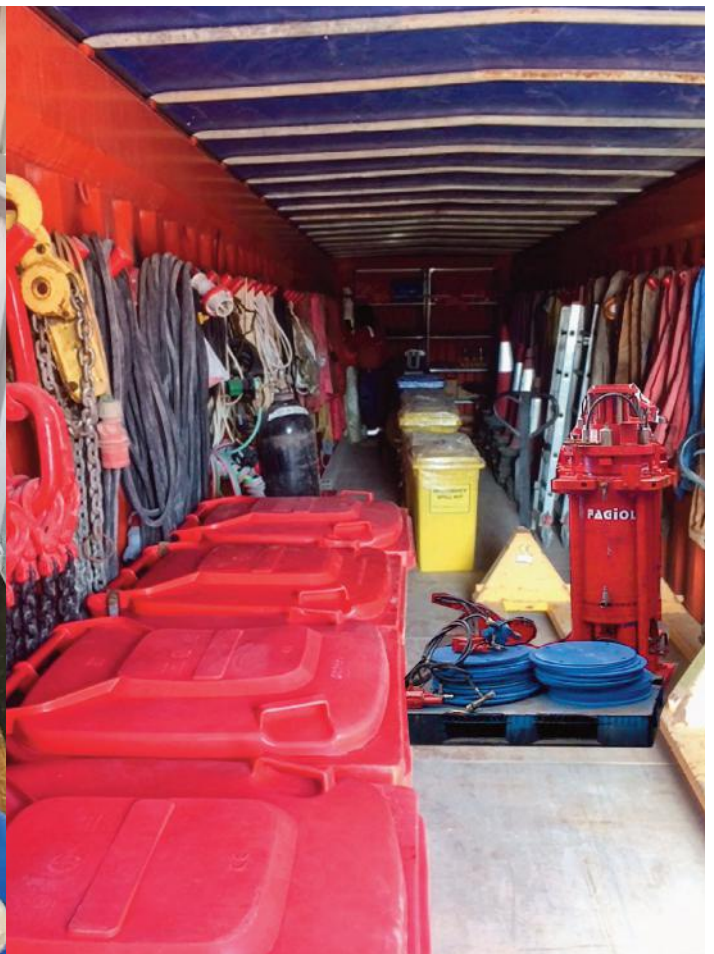

Fagioli container workshop is the perfect solution for quick maintenance interventions and a real support to clients needs: Maintain the equipment suitable and reliable for the use; Maintain high availability of equipment; Provide safe equipment to the operators; Avoid environmental impacts; Reduce site downtime and increase reliability; Reduce costs of corrective maintenance.

Moreover, Fagioli is able to provide on request complete turnkey solutions, structural, electrical and mechanical updating, including software applications by modifying existing plant to optimize performance; to test industrial machines, machinery spare parts and standards or tailor-made equipment for heavy haulage activities in house, under the constant control of our skilled engineers, operators and staff.

Fagioli with its dedicated Maintenance workshop area of abt. 3,000 m2 located at the headquarters in S. Ilario d'Enza (RE), Italy, is able to guarantee no.30 experienced workers. From this main hub and control center, Fagioli is able to organize a quick intervention with its container workshops on a worldwide basis.
